

1st year Master of Science in Chemistry, profile Research
Example week 5 (October)

	Monday	Tuesday	Wednesday	Thursday	Friday
8h-9h		Electrochemistry (lecture)			
9h-10h	Environmental Analysis (lecture + practicals)		Risk Assessment (lecture)	Molecular Physical Chemistry (lecture)	Chemometrics (lecture)
10h-11h					
11h-12h				Molecular Physical Chemistry (practicals)	Chemometrics (practicals)
12h-13h					
13h-14h	Environmental Analysis (lecture + practicals)	Advanced Organic Chemistry (lecture)			
14h-15h			Electrochemistry (lecture)	Polymer Chemistry (lecture)	Advanced Organic Chemistry (practicals)
15h-16h					
16h-17h					
17h-18h					

Green means mandatory course, Blue means elective course.
